

Reality Token

Overview

Since beginning, the victory of Steady Coin applications has been amazing, in spite of the fact that it was limited at beginning, its development has been quickening to move the industry around financial disintermediation to a multi-billion-dollar powerhouse. While constrained at first, the Steady Coin advertise capitalization has finished in exponential growth through the summer of 2021.

The regulation scene of Steady Coin is rapidly expanding, taking over, morphing and synthesizing the teachings of conventional Steady Coin by implanting de-centralized administration and permission-less get to mechanics, all on-chain, all-inclusive and incorruptible.

The sheer potential for swarm development empowered by the open source nature of the bulk of the Steady Coin codebase is however another major factor fuelling the unstable

development of the 'money legos'. The previously mentioned, calls for an self-evident conclusion: nowadays, we are within the very early organize of the method of arrangement of the modern regulation scene that, for the up and coming decades, will reshape the money related framework as we know it nowadays, turning it into something exceptionally diverse, something comprehensive, free, and effective.

Decentralized applications, having their objective to supplant key education comprising the landscape of the modern money related framework, have been developing ever more sophisticated and proficient in terms of loaning and borrowing instruments, hazard administration and on-chain liquidity era. The pace at which developments happen is higher than ever and accelerating.

The day is at long last here, with the dispatch of Reality Token, an AIO Stage built natively on Binance Smart Chain with Genuine multi chain support.

The main point of Reality Token is to Contribute to Worldwide Problems and to Make People Feel Useful while doing so.

What is Reality Token You May Ask?

What is Reality Token You May Ask?

If you are anything like the Reality Team, we all have goals, ideas, we dream of accomplishing something that is greater than us, bigger than any of our wildest dreams could have ever imagined. You quickly realize that these dreams cannot become a Reality until there are actions from one person, or a group of people, that collectively come together and share the dream of wanting to change the world, one person at a time. There are a few words that can unite all people, from all over the world, all will be different and all beautiful. We all have a story, We all have a history and maybe the most important, We all share our own Reality. All of us, " we the people " all we really want is a little Peace, Joy and Happiness, for our families, for all of our loved ones, for all people, all over the World.

This is what will define each of us. What did we do? Who did we help? What actions did we take? What was my part when they/we did change the world? Reality happens when "We the People" put Reality in Motion.

How about this name for our Charity "Reality In Motion"

What is our image? We tend to contribute to solving worldwide problems such as

- Disaster Relief
- Global Warming and Recycling

The Vision

Where do we see ourselves in two years?

Right now, there is a parcel of Dispatch cushions inside the Crypto market. The competition is furious; however, each of them needs something to be idealized and covers all angles of the investing handle. Moreover, the launch pad is a fair instrument and should not end up too "overhyped" in any way that it gets to be unfortunate for the speculators. For that, we are building Reality Token, to become "not another Launchpad". The goal of our platform is to become a fully functioned ecosystem that connects block chain start-ups and investors that ready to impact the world through Binance Smart Chain

Reality Token will act as a kick-start to allow ventures every means they ought to succeed, counting a launching stage, hatching bolster, and foundation bolster.

Why Binance Smart Chain (BSC) you may ask?

Binance Smart Chain (BSC) is a blockchain network built for running smart contract-based applications. BSC runs in parallel with Binance's native Binance Chain (BC), which allows users to get the best of both worlds: the high transaction capacity of BC and the smart contract functionality of BSC.

Its attributes include:

- ★ Independent Blockchain
- ★ Native Interoperability
- ★ Validator Quorum
- ★ Support Staking and Community-Based Governance
- ★ Proof-of-Staking-Authority
- ★ Staking
- ★ Other Supported Token (**RTC**)
- ★ Binance Coin
